

Disclosures Regarding Authors' Conflicts of Interest

We include this omnibus conflict-of-interest disclosure statement at the end of this special issue rather than appending Article-specific disclosure statements to each Article.

This omnibus disclosure document is intended to comply with the substantive principles of the Disclosure Policy of the American Economic Association. To that end, we note that Omidyar Network and the Knight Foundation have provided monetary support to the Digital Economy Project at Yale University's Tobin Center for Economic Policy (which provides infrastructure enabling these Articles) and directly to certain of its participants. Omidyar Network also employed one of the co-authors of the Articles for a period that overlapped with the time period in which certain of the Articles were drafted. We also note on behalf of all authors that no non-author person or entity had the right to review any of the Articles included in this special issue prior to their publication.

In addition, we offer the following list of all authors who co-authored one or more of the Articles, along with each author's individual disclosures. For clarity and brevity, each author's name is followed by one or more parenthesized letters indicating (by reference to the following key) which Article(s) the author co-authored:

- a. Consumer Protection for Online Markets and Large Digital Platforms*
- b. More Competitive Search Through Regulation*
- c. Fairness and Contestability in the Digital Markets Act*
- d. Equitable Interoperability: The "Supertool" of Digital Platform Governance*
- e. Market Design for Personal Data*

Individual Author Disclosures

Dirk Bergemann

Article: (e)

Douglass and Marion Campbell Professor of Economics and Director of the Center for Algorithms, Data and Market Design, Yale University. He has no engagements or affiliations to disclose pursuant to the disclosure policy of the American Economic Association.

Alessandro Bonatti

Article: (b)

John Norris Maguire (1960) Professor, MIT Sloan School of Management. He has no engagements or affiliations to disclose pursuant to the disclosure policy of the American Economic Association. He acknowledges financial support through National Science Foundation Grant SES-1948692.

L. Elisa Celis

Article: (b)

Assistant Professor of Statistics and Data Science, Yale University. Within the last three years, she has received the Faculty Award from J.P. Morgan Chase and has been a Research Advisory Board Member for Arnold Ventures' Advancing Pretrial Policy and Research (APPR) Initiative.
